

FINAL COLOR "FC"

This horse was awesome. She became my parent's horse when they played a little in the racing world. They actually claimed her and she was put into training with Wilf Jones. That was when she was 3. She raced for us for about 2 years and then she started doing the claiming races, at this point mum was terrified she would be claimed. FC had an eating problem, so they decided to bring her home for a rest and to be returned to the track. A young groom at the track had made a terrible mistake with two cooling down agents and actually gave her 3rd degree burns on her body. Her fur never really came back. In those days I was now the eventer in the family and mum asked me (loudly) to ride her so dad wouldn't send her back to the track. I started. She was absolutely everything I hated. Not particularly wide or substantial, narrow really, chestnut mare. But wow, we became partners. When I got married in 1993 they gave her to me as a wedding gift. She was still around long after that marriage dissolved. lol

We went on to do preliminary and then she become a fantastic mom. She was an orphan herself being bottle fed from day one. Kerry her 1st daughter is a top notch polo pony in Florida, she had twins which sadly died during the ice storm, then on to have Java, and Ruby who like their mother event and then last but not least Cameo a beautiful tri-colour filly which Rosalind has.

This mare was retired after Cameo was born and Rosalind and Andre kindly offered to open their home and hearts for FC which now became Fancy. At first Rosalind wasn't sure.. FC is an incredibly dominant mare and believe me no one pushed her around and she loved people.

Rosalind and Andre are the official last owners of FC and she was living heaven on earth and now she is in Heaven in heaven with her boyfriend Party Politics "Poly" who I'm sure is thrilled to have her join him.

Thanks Rosalind and Andre for your wonderful care of my wonderful Little Lady.

Love Christine
